

London Aug 24th 1842 25

My dear Sir

Being in town for a few days and obliged to send off in a great hurry my *Solenanthera* to De Candoille which I have scarcely had time to finish I can only send you the following brief outline of what I have done as to *American species*

American species

1 *Alley*

91 *lobifolia* ovarii loculis 1. ovulatis

10 *Paniculata* Linn including *undulata* Ait *Sidmanii* *lehm* *reabra* Swert, *cordata* Elliott.?

2 *P. acuminata* Pursh - *P. corymbosa* Swert?

3 *P. maculata* Linn - *lobifolia* Mich *pyramidalis* Ten.

4. *P. triflora* Mich (nisi ignota)

5 *P. carolina* Linn

a ovata *P. ovata* Linn

b rubra *P. nitida* Pursh *P. suffruticosa* Willd.

γ puberula

6 *P. glaberrima* Linn - *P. carnea* Linn

7 *P. floridana* sp. n. Florida Chapman like *glaberrima* but corymb glandular, downy and calyx nearly of *P. pilosa*

8 *P. neptunus* Mich *P. stolonifera* D. & C. Gray

9 *P. divaricata* Linn *P. canadensis* Sweet

10 *P. pilosa* Linn

11 *P. acutata* Mich

12 *P. Drummondii* Hook

92 *subulata*

+ Ov. loc. 1. ovulatis

13 *P. Sabini* Dougl.

14 *P. subulata* L. - *P. setacea* L.

β *lobifolia* *P. procumbens* Linn *forma hortensis*

15 *P. Kentzii* Nutt 16 *P. coespitosa* Nutt both unknown to me

17 *P. Kunthii* Dougl - perhaps *P. coespitosa*

18 *P. Douglasii* Hook 19 *P. Hoodii* Richards

20 *P. Hoodii* a new sp. from Douglas's last collⁿ
